

PROFESSIONAL SUMMARY

Based at **LinkedIn's EMEA Headquarters in Dublin** within the **EMEA RIT (Regional IT) Department**, facilitating the technical backbone of a global technology ecosystem and ensuring high-stakes enterprise environments remain resilient and scalable.

Proactive Technical Support Engineer with **9+ years of experience** in hands-on technical support, infrastructure troubleshooting, and escalated problem-solving. Proficient in SaaS platforms, identity ecosystems (Okta, Azure AD), endpoint management, and automation via PowerShell, Bash, and AI/LLM tooling. Partners with engineering and product teams to deliver systemic solutions beyond immediate fixes.

TECHNICAL SKILLS

AI & Automation OpenAI, Anthropic Claude, Google Gemini, Multi-Agent Workflows, Prompt Engineering, PowerShell, Bash, Python, Cursor IDE	Identity & Endpoints Okta, Active Directory, Azure AD, SSO, MFA, Autopilot/Intune, Workspace ONE, JAMF Pro
SaaS & Service Mgmt JIRA, Zendesk, ServiceNow, Oracle DB, CRM, Stripe Enterprise, Slack Admin, Microsoft 365, Atlassian	Infrastructure DNS, DHCP, VPNs, VDI, NEST, Ericsson Network Tools, RAN/Cell Tower Analysis, BitLocker/FileVault
Full-Stack & Cloud Supabase, Flutter, Render, Cloudflare, Xcode, App Store Connect, Transporter, Stripe Enterprise, JIRA, Zendesk, GitHub Actions	
ITIL-aligned Incident, Problem & Change Management · Strict SLA adherence	

PROFESSIONAL EXPERIENCE

Production Engineering & Enterprise IT Support LinkedIn EMEA HQ Dublin · EMEA RIT · HCLTech (Contract) <i>LinkedIn EMEA RIT onsite support — identity, MDM, new hire onboarding, M365, and global employee tooling.</i> - Okta Admin & Microsoft Authenticator: enrollment, MFA registration, SSO, LDAP resets, security groups via ServiceNow/Slack. - Onboarded LinkedIn Recruiter, Sales Navigator, Tableau, Dynamics 365, and Office 365 — licences, SSO, and network access. - Compliant MacBook/Windows provisioning via Intune, AirWatch/Workspace ONE; hardware inventory tracking for stock, deploy, and returns. - M365 fixes: Outlook/Teams/OneDrive/SharePoint sync, permissions, mailbox provisioning; cross-app data sync and retrieval. - VDI (Horizon), BitLocker/FileVault, kernel panics; ServiceNow RCA, documentation, and engineering/security escalations.	Jul 2025 – Present · Dublin · On-site
Full-Stack Application Developer & Automation Engineer Independent · AstraDesk SaaS Platform <i>End-to-end proprietary SaaS — Supabase backend, Flutter clients, Render/Cloudflare production, and full Apple release pipeline.</i> - Supabase: PostgreSQL schema, SQL migrations, RPCs, Row Level Security, Auth, Storage, and Edge Functions for documents, invoicing, e-signatures, and entitlements. - Flutter/Dart cross-platform development (iOS, macOS, Android, Web) with AI-assisted tooling (Cursor IDE, GPT-5.5, Codex, Claude Opus) and agentic workflows. - Apple ecosystem: Xcode, App Store Connect, TestFlight, and Transporter IPA distribution; Render/Cloudflare production deployment. - Stripe Enterprise billing integration; Zendesk for customer case management and JIRA for engineering ticketing as first point of contact — analyzing issues, escalating to dev teams, and educating customers on product features.	Concurrent / Ongoing

Technical Support Level II

Sep 2024 – Mar 2025 · Remote

Dropbox Sign (Contract)

Email and chat support across Dropbox's product suite — troubleshooting, customer education, and seamless end-user experiences.

- Escalated complex issues with engineering and product teams; ITIL-aligned Incident and Problem Management.
- Dropbox product expertise: core sync/sharing/team admin; Sign templates, API, webhooks, signer routing; Fax transmission and provisioning — with structured diagnosis via API logs, permissions checks, reproduction testing, and environment validation.
- Stripe Enterprise billing — subscription verification, financial/account updates, fraud detection review, and guiding customers through billing features and plan changes.
- Managed SaaS renewals, billing negotiations, and solution positioning with empathetic, retention-focused communication.

Technical Account Executive

Jun 2021 – Sep 2024 · Remote

Infosys · EE UK (Full-time)

EE UK B2B/B2C telecoms — contract lifecycle, NEST & Ericsson network diagnostics, and high-resolution case ownership.

- B2B & B2C contracts: onboarding, maintenance, renewals, upgrades, and amendments for new and existing customers.
- NEST: query cell site records, update infrastructure locations, check element status, correlate customer location with serving cells, and package faults for BT engineering.
- Ericsson tools: analyse cell tower/RAN health, site alarms, sector availability, subscriber attach/detach, and signal/session data to isolate network vs device faults.
- Diagnostic workflow: SIM validation → device registration check → Ericsson signal/session review → NEST site cross-reference → ServiceNow escalation to network, billing, or device teams.
- Credit control (discounts, refunds, billing); device repair/replacement; insurance liaison; ITIL case management with high FCR.

Technical Support & Customer Care

Jul – Dec 2018

Abtran (Full-time)

First-point support for business and residential customers — technical resolution, billing, and infrastructure coordination.

- Oracle DB & CRM: monitored accounts, service status, and case history; validated billing and incident data before escalation.
- Liaised with infrastructure/engineering teams; maintained utilities file & register for engineering requests and service restoration.
- Credit control — collections, payment plans, balance recovery; billing inquiries, disputes, tariff corrections, and credits.
- Full case handling: inbound/outbound calls, callbacks, complaint escalation, and SLA-driven resolution.

Technical Support Executive

Jan 2017 – Jul 2018 · 1 yr 7 mos

Concentrix · BT Broadband (Convergys)

BT Broadband first-line support — infrastructure diagnostics, engineering dispatch, billing, and contract lifecycle.

- Diagnostic tooling: line tests, sync/stability checks, noise margin review — pinpointing faults at premises, loop, cabinet, exchange, or core network.
- Fault workflow: symptom capture → remote diagnostics → infrastructure correlation → BT field engineering dispatch with accurate fault data.
- BT engineering escalation for ingress/backhaul; contract renewals, plan upgrades, and tariff amendments for new and existing customers.
- Credit control & billing adjustments — payment plans, disputes, refunds; ITIL case management with high FCR; mentored new hires.

Regional Sales

Nov 2014 – Jul 2016 · Ireland & UK

Gekko Group · Field Marketing

- Achieved sales targets; product education, customer relations, and daily reporting to head office.

EDUCATION

Degree in Information Technology — Quality and Qualifications Ireland (QQI)
