ABOUT

Professional Summary

AVAILABILITY

My role at **LinkedIn's EMEA Headquarters in Dublin** (EMEA RIT) ended in **June 2026** as part of broader company layoffs that affected many colleagues. I am now **actively seeking a permanent, full-time position** in technical support, IT operations, or automation engineering.

Proactive Technical Support Engineer and User Operations Specialist with over **9 years of experience** delivering hands-on technical support, infrastructure troubleshooting, and escalated problem-solving in high-growth enterprise environments.

Highly proficient in administering core SaaS platforms, identity ecosystems (Okta, Azure AD), and endpoint management. With an active focus on using advanced AI/LLM tools (Cursor, Agentic Workflows) and cutting-edge models alongside scripting (PowerShell, Bash) to automate repetitive tasks, I excel at diagnosing complex issues and scaling IT operations.

Known for looking beyond immediate fixes to ask *"why did this happen?"*, actively partnering with engineering and product teams to deploy systemic solutions and elevate the overall customer experience.

I've operated across customer-facing, technical, analytical, and strategic support at enterprise scale — as **internal IT at LinkedIn EMEA HQ** and **external product support at Dropbox Sign L2** (APIs, integrations, and Stripe billing diagnosis). I've owned complex cases end to end and improved systems through self-service docs, playbooks, and product feedback.

EXPERTISE

Technical Skills

AI Models & Ecosystems

OpenAI (GPT-5.5, GPT-5.4, Codex 5.3/5.2), Anthropic Claude (Opus 4.8), Google Gemini, Multi-Agent Workflows, Prompt Engineering

Scripting & Automation

PowerShell, Bash, Python (Familiar), Cursor IDE

SaaS & Service Management

JIRA, Orbit, Zendesk, ServiceNow, Oracle DB, CRM Platforms, Stripe Enterprise Billing, Slack Admin, Microsoft 365, Atlassian

Identity & Endpoint Management

Okta Admin, Microsoft Authenticator, Active Directory, Azure AD, SSO, MFA; AirWatch, Workspace ONE, Autopilot/Intune, JAMF Pro

Networking & Infrastructure

DNS, DHCP, VPNs, Core Routing, VDI (OmniSSA/VMware Horizon), NEST, Ericsson Network Tools, Cell Tower/RAN Analysis, Encryption (BitLocker/FileVault)

Hardware & AV

macOS, iOS, Windows PC/Laptops, Break/Fix, Video Conferencing, Printer/Peripheral configuration

Full-Stack & Cloud

Supabase, Flutter/Dart, Render, Cloudflare, Xcode, App Store Connect, Transporter, GitHub Actions, Stripe Enterprise, JIRA, Zendesk

ITIL-aligned Incident, Problem & Change Management · Strict SLA adherence

Professional Experience

Production Engineering & Enterprise IT Support

Jul 2025 – Jun 2026
Dublin · On-site

LinkedIn EMEA HQ Dublin · EMEA RIT · HCLTech · Contract

- Manage Active Directory, Azure AD, **Okta Admin Console**, and ESP authentication — ensuring users are enrolled and up to date, MFA resets, account lockouts, SSO failures, LDAP password resets, and security group provisioning. Verified **Microsoft Authenticator** enrollment for new and existing users.
- Onboarded employees to **LinkedIn Recruiter**, **Sales Navigator**, **Tableau**, **Microsoft Dynamics**, and **Office 365** — licence assignment, SSO routing, and network access.
- Provisioned new **MacBook** and **Windows** devices — Autopilot/Intune (AAD) and **AirWatch / Workspace ONE** MDM enrollment, certificates, compliance policies, and encryption (BitLocker/FileVault).
- Administered **AirWatch / Workspace ONE** for device compliance — remediating non-compliant endpoints and maintaining MDM records across LinkedIn's global fleet.
- Resolved **Microsoft 365** issues — Outlook send/receive failures, Teams sign-in errors, OneDrive sync conflicts, SharePoint permissions, mailbox provisioning, and cross-application data synchronisation.
- Maintained **hardware stock inventory** — tracking devices in stock, deployed, returned, and in repair for spare pool and new hire fulfilment.
- Configured **user permissions and profiles** — security groups, app access, mailbox/SharePoint rights, VPN privileges, and role-based tooling access.
- Supported **printer and print network infrastructure** — driver deployment, queue configuration, mapping, and connectivity troubleshooting.
- Delivered **Omnissa Horizon VDI** application software troubleshooting and technical support to global users — virtual desktop sessions, user VMs, connection rejections, certificate mismatches, pool assignment failures, and application compatibility.
- Managed incidents through **ServiceNow**, **JIRA**, and **Orbit** — liaising with engineering, infrastructure, security, and facilities teams with SLA follow-through.
- Used Slack for cross-department coordination — root cause analysis, documentation, and handover for global support continuity.

Full-Stack Application Developer & Automation Engineer

Concurrent / Ongoing

Independent · AstraDesk SaaS Platform

- Design and maintain **Supabase** backend — PostgreSQL schema, SQL migrations, RPCs, Row Level Security, Auth, Storage, and Edge Functions for documents, invoicing, e-signatures, entitlements, and business profiles.
- Build cross-platform app in **Flutter/Dart** (iOS, macOS, Android, Web) using AI-assisted development (Cursor IDE, GPT-5.5, Codex 5.3, Claude Opus) and agentic workflows.
- Manage **Apple Developer Program** — Xcode builds, provisioning profiles, App Store Connect, TestFlight, and Transporter IPA distribution.
- Deploy on **Render** and **Cloudflare** — static Flutter Web, Node.js APIs, DNS, CDN caching, and Turnstile bot protection.
- Integrate **Stripe Enterprise billing** — subscription checkout, payment flows, and platform monetization.
- Customer support via **Zendesk** and **JIRA** — first point of contact, issue analysis, engineering escalation, and customer education.
- Own CI/CD — GitHub workflows, environment configuration, and post-deploy verification across web and native targets.

Technical Support Level II

Sep 2024 – Mar 2025 · 7 mos
Ireland · Remote

Dropbox Sign · Contract

- Collaborated with engineering and product teams to escalate and resolve complex issues, contributing to feature enhancements.
- Applied ITIL-aligned Incident and Problem Management for timely resolution and consistent service quality.
- Deep expertise in **Dropbox**, **Dropbox Sign**, and **Dropbox Fax** — sync/sharing conflicts, Sign templates, API integrations, webhooks, audit trails, and fax transmission issues.
- Structured technical diagnosis — reproducing issues, reviewing API logs, validating permissions, testing across browsers/OS, and isolating root causes.
- Guided customers through template setup, bulk-send workflows, third-party integrations, and workspace security policies.
- Used **Zendesk** for reporting, tracking, and resolving technical issues.
- Diagnosed payment and access mismatches via **Stripe Enterprise billing admin access** — traced **Customers, Subscriptions, Invoices, PaymentIntents/Charges, Payment methods, and Events** (`invoice.payment_failed`, `invoice.paid`, `customer.subscription.updated`) to reconcile Dropbox admin views with Stripe's source of truth.
- Investigated failed renewals, card declines, **3DS/SCA**, `past_due`/Smart Retry states, duplicate charges, and seat/plan mismatches — guided remediation via **Stripe Billing Portal** or escalated with Customer, Subscription, and Invoice IDs when entitlements failed to sync.
- Reviewed **Stripe Radar** fraud alerts and payment security flags; verified subscriptions and directed users through plan changes and billing workflows.
- Managed SaaS renewals, billing negotiations, and solution positioning with empathetic communication.

Technical Account Executive

Jun 2021 – Sep 2024 · 3 yrs 4 mos
Greater Dublin · Remote

Infosys · Full-time · EE UK

- Managed **B2B** and **B2C contracts** — onboarding, renewals, plan upgrades, amendments, and retention-focused solution positioning.
- Operated **NEST** — queried cell site records, updated infrastructure locations, checked element status, correlated customer location with serving cells, and packaged faults for BT engineering.
- Used **Ericsson network diagnostics** — RAN/cell tower health, site alarms, sector availability, subscriber attach/detach, and signal/session analysis.
- Connectivity workflow: SIM validation → device registration → Ericsson signal review → NEST cross-reference → root cause isolation → ServiceNow escalation.
- Liaised with **BT engineering** on ingress, backhaul, and downtime — translating diagnostic output into repair strategies.
- Escalated via **ServiceNow** to network operations, billing, device fulfilment, and insurance teams.
- **Credit control and account management** — billing inquiries, discounts, refunds, payment plans, and accurate financial records.
- **Device lifecycle** — diagnostics, repair booking, replacement fulfilment, and insurance claim coordination.
- ITIL-aligned case management with high FCR; mentored new hires on NEST/Ericsson workflows.

Technical Support & Customer Care

Jul – Dec 2018 · 6 mos
Greater Dublin

Abtran · Full-time

- Resolved technical queries at first contact — diagnosing service issues and determining escalation paths.
- Used **Oracle DB** and **CRM databases** to monitor accounts, service status, and case history.
- Liaised with infrastructure/engineering teams; maintained **utilities file and register** for engineering requests.
- **Credit control** — balance recovery, payment plans, and collection activity aligned with CRM records.
- **Billing inquiries** — invoice disputes, tariff corrections, and refund/credit requests.
- End-to-end case handling — inbound/outbound calls, callbacks, complaint escalation, and SLA-driven resolution.

Technical Support Executive

Jan 2017 – Jul 2018 · 1 yr 7 mos

Concentrix · BT Broadband Project ·

Greater Dublin

Convergys

- Ran **BT Broadband diagnostic tooling** — line tests, sync/stability checks, noise margin review, and fault localisation (premises, loop, cabinet, exchange, or core network).
- Fault workflow: symptom capture → remote diagnostics → infrastructure correlation → **BT field engineering dispatch** with accurate fault data.
- Escalated ingress and backhaul issues with BT engineering — diagnostic evidence and SLA context.
- Managed **contracts and renewals** — plan upgrades, tariff changes, and service amendments.
- **Credit control and billing** — payment plans, balance recovery, disputes, adjustments, and refunds.
- ITIL-aligned case management with high FCR; mentored new hires on broadband diagnostic workflows.

Regional Sales

Nov 2014 – Jul 2016 · 1 yr 9 mos

Gekko Group · Field Marketing &

Ireland & UK

Experiential

- Assisted customers with product selection and relayed detailed product knowledge.
- Built customer relationships to drive brand loyalty and long-term growth.
- Liaised with suppliers and reported sales, stock, and marketing data to head office daily.
